Now you know and I know too that there are some issues you consciously want to work with. Hypnotherapy will suggest to your subconscious mind that through this hypnotic experience you will make some very positive and beneficial inroads into those issues and your subconscious mind will recognise when it's right to do what it does to help you achieve your desired outcome.

Michelle has used hypnotherapy to help people in the following areas.

Stop smoking	Ideal Weight	Stress	Sleep	Motivation	Depression
Self-confidence	Addictions	Well-being	Memory	Childbirth	Spirituality
Regression/recall	Pain Control	Bad Habits	Relationships	Fear	Anxiety

How to use this gift.

Call Michelle on 0487 748 302 for an appointment and tell her you wish to use your gift certificate. You will be asked the name and phone number of the giver. Michelle then calls the giver to arrange payment for your consultation.

If you never use this gift for hypnotherapy, remember someone cared enough to make the offer and is a loving supporter in your life. You are loved and supported. Maintain a sense of fun in all things you do.
